

Dear Colleagues,

The RSCN is part of the EU-funded [DigitalHealthUptake](#) project, a Coordination and Support Action to accelerate the adoption and large-scale use of digital health and care solutions in Europe.

We would like to bring your attention to the opportunity of receiving funding for Twinning under the DigitalHealthUptake project.

- ▶ **The call for Twinning has just been extended until [October 13, 2023](#).**
- ▶ **It will grant €8,000 to 12 Twinning initiatives that want to transfer their innovative digital health practices from one European region to another.**

Why should you apply to the DigitalHealthUptake Call for Twinning?

We believe that this is a great opportunity for organisations within AHL Reference Site regions and those represented by TWG members to gain a competitive advantage from the process of twinning through knowledge exchange, access to innovative solutions, networking opportunities, and potential funding support. Participating in twinning will allow you to collaborate on transformative digital applications that can revolutionize health and care in Europe.

Interested?
